Junior Full Stack Developer with hands-on experience building modern web applications using ASP.NET Core, React, Next.js, and PostgreSQL. Focused on building maintainable, scalable software while transitioning from a finance background into full-time software engineering.

Technical Skills

Languages: C#, TypeScript, JavaScript

Backend: ASP.NET Core, Entity Framework Core, REST APIs

Frontend: React, Next.js, Tailwind CSS, HTML5, CSS3

Databases: PostgreSQL, MS SQL, MySQL

Tools: Git, GitHub, Docker

Professional Experience

Freelance Full Stack Developer

06.2025 – Present

- **Built** and **deployed** modern web applications for real-world business use, ranging from company presentation websites to full-stack business platforms.
- **Designed** and **developed** scalable solutions using **React**, **Next.js**, **TypeScript**, **ASP.NET Core**, **Entity Framework Core**, **PostgreSQL**, **Docker**, **Git**, and **GitHub**.
- **Built** full-stack applications featuring **authentication**, **role-based access**, **REST APIs**, **CRUD** operations, admin dashboards, database design, reusable UI components, and responsive user interfaces.
- **Developed** multilingual, mobile-first business websites with modern UI, **responsive design**, optimized performance, and production-ready deployments.
- **Worked** directly with clients to translate business requirements into maintainable software solutions, making architecture, UI/UX, and technical implementation decisions.
- **Delivered** projects including photography platforms, accounting services websites, business presentation websites, and custom business management systems.
- **Currently developing** additional commercial platforms, including business websites, catalog and ordering systems, and industry-specific web applications.

General Accounting Expert, Coca-Cola Hellenic Business Services Organization EOOD, Varna

12.2025 – 06.2026

- **Supported** month-end close activities, financial reporting, account reconciliations, and balance reviews across multiple accounting processes.

- **Managed Fixed Assets** and **CAPEX** accounting activities, ensuring accurate asset lifecycle tracking and financial reporting.
- **Ensured** compliance with **IFRS**, internal company policies, and established accounting procedures.
- **Collaborated** with cross-functional teams to resolve accounting issues, improve process efficiency, and maintain high-quality financial records.
- **Contributed** to continuous process improvements within a shared services environment, supporting operational efficiency and reporting accuracy.

Audit Assistant – KPMG Audit Bulgaria

05.2023 – 05.2024

- **Executed** audit procedures including financial statement testing, payroll recalculations, stock counts, and internal control assessments.
- **Collaborated** with client finance teams to collect, validate, and reconcile financial data, identifying discrepancies and supporting audit conclusions.
- **Applied IFRS, IAS, and NAS** standards while following KPMG audit methodology to ensure regulatory compliance.
- **Managed** multiple audit engagements simultaneously, consistently delivering accurate results within tight reporting deadlines.
- **Developed** strong analytical, communication, and data analysis skills using **Excel, Power BI**, and enterprise financial systems.

Projects

DG Vision Studio – Photography Business Platform

- **Developed** a modern photography business website using **Next.js, React, TypeScript**, and **Tailwind CSS**, featuring responsive design, portfolio galleries, multilingual content, and SEO-friendly architecture.

Nikola Halachev – Accounting Services Website

- **Built** a bilingual corporate website with **Next.js** and **TypeScript**, focused on professional service presentation, responsive UI, and client-oriented communication.

HygiaTrade – E-commerce Platform (In Progress)

- **Developing** a full-stack e-commerce platform using **ASP.NET Core Web API, Next.js, PostgreSQL**, and **Entity Framework Core**, implementing authentication, product catalog, shopping cart, orders, and admin workflows.

PaladinHub

- **Designed and developed** a community platform featuring authentication, role-based access, content management, and database-driven functionality using **ASP.NET Core, PostgreSQL**, and **Entity Framework Core**.
